**GENERAL INFORMATION**

**Project Name:**

**Item:**

**Quantity:**

**Model:** 605

**Length:**

**DESCRIPTION**

Single slimline unit houses both light and heat in one unit.

Custom length housing lets you specify custom housing lengths with heat/light element placed anywhere in the housing. This allows you to heat specific wells, pans or areas of a counter.

High-efficiency design means less heat escapes out the top and more heat is directed down on the work surface. NASA-developed “space blanket” gives the Stealth Warmer a 15-20 percent cooler outer housing surface (touch temperature) than the competition as well as twenty percent higher direct heat output than industry standard.

This unit has a clean, slim profile. Small overall size means less obtrusive, distractive design to customer and easier to work into overall design.

No wire grill to clean around or collect debris. Wiping down unit will maintain reflector efficiency and attractive appearance. Smooth outer housing is also easy to wipe off.

Custom length capability. Custom lengths can be accommodated, from 22” to 82” long in single heater units, and unlimited length in multiple heater combinations.

Simple mounting design.

UL tested and certified to UL Std. 197.

**GENERAL SPECIFICATION**

- The warmer/light combo is manufactured by BSI, LLC.
- The warmer/light combo shall consist of an exterior aluminum housing, highly polished reflector, thermal wrap, multi-layer insulation, red heating element that is tubular metal sheathed, and inner aluminum holder/reflector for the light.
- The lamp is a shattershield bulb for maximum protection over food applications.
- The warmer/light combo shall include a remote on/off switch, a remote ballast and an infinite controller.
- The warmer/light combo shall be factory-assembled ready for electrical installation.

LIGHTS AND WARMERS

OPTIONS AND ACCESSORIES

Light/Heat housing is an aluminum extrusion finished to match guard. NSF-approved powder-coat colors are available as well as satin or polished finishes. Please contact factory for further information.

Switch Options
- Remote Infinite (standard)
- Remote Switch
- Solid State
- Internal Control
- Indicator Light

The warmer shall be single phase and rated at _______ watts, _______ volts.
Warmer shall be _______ inches in overall width.

STANDARD NSF LISTED FINISH OPTIONS
- Brushed Aluminum
- Chrome
- Gloss Black
- Wrinkle Black
- Smoked Copper
- Polished Brass Finish
- Other ____________________________________________

Wiring Diagrams for Stealth™ Warmer and Fluorescent Light Combs can be found at the end of the Lights and Warmers Section.

MODEL NUMBER | OA HOUSING | VOLTS (Light)* | WATTS | TOTAL AMPS
---|---|---|---|---
605-120-18 | 22"-28" | 120 (120) | 350 | 3.18
605-120-24 | 28"-34" | 120 (120) | 500 | 4.43
