

In any servery, space is at a premium. But with ZSpace™, the revolutionary modular food merchandising system you can take advantage of every inch of your counters and the space above them.

Your food shield isn't only about protecting food anymore — with ZSpace your food shield becomes a sales center. Place ZSpace accessories on every food shield post, and watch the impact your serving line has on your bottom line.

Install the EZ-Clamp on any ZGuard® or Deco-Tech® food shield and add up to three Flexi-Rings or any of our specially designed trivets, shelves or trays and let the merchandising begin.

The EZ-Clamp has a swing opening and quickly installs on any 1" post without any tools. The EZ-Clamp can hold up to 25 pounds securely.

Add up to three Flexi-Rings and use them to hold bowls, plates, vases or any other vessels you want to create stunning point-of-purchase displays, functional condiments stations or simply to add a little spice to your decor.

There simply isn't a more functional or clever way to showcase food. And because it's modular, use it one way for lunch and another way for dinner. From effective POP displays to efficient food delivery systems, ZSpace lets your ideas soar.
