

## ASSEMBLING YOUR NEW PROTECTIVE SHIELD

### SHIPMENT CONTENTS:

- 1 - Guard Base
- 2 - Posts with Brackets
- Plexiglass Panel Screws

### REQUIRED TOOLS:

- 1/8" Allen Wrench
- Philips Screwdriver

### ASSEMBLY INSTRUCTIONS

1. Place posts on base inner sleeves. Secure posts to inner sleeves using the pre-drilled holes on the underside of the base and screws provided.
2. Loosen the Slide Collar Nut on each bracket. Evenly slide the brackets to the same height on each post. Retighten to secure.
3. Loosen the four set screws on each bracket with the Allen wrench. Slide the plexiglass panel into brackets and tighten the set screws.
4. To adjust the panel angle, pull out the spring plunger. Replace the spring plunger back in the pin washer.
5. Remove protective film from plexiglass.

## CLEANING INSTRUCTIONS

### PLEXIGLASS PORTABLE FOOD SHIELD:

- Wipe dust and dirt from the plexiglass.
- Wet plexiglass with a solution made from water and dish soap. Avoid using products with alcohol, ammonia, or aromatics.
- Wipe the plexiglass until it is dry.

### GLASS PORTABLE FOOD SHIELD:

- Wipe the surface with a clean, damp cloth to remove fingerprints, dust, etc.
- Spray with a light coating of glass cleaner to remove grease and dirt. Use a non-ammonia cleaner.
  - Do not use brass polish on your food guards as it will degrade the finish.
  - Do not scrub the surface with abrasives like steel wool, pot scrubbers, abrasive powders, or similar products as they will remove the protective coating.
