

# SENIOR LIVING SOLUTIONS

The food you prepare is at the core of the care you administer to your patients, residents, visitors, and staff. That is why we take great pride in designing and fabricating food shields, custom counters, and comprehensive servery solutions specifically tailored to healthcare environments. What we do is about far more than just assembling glass, metal, and component parts. At BSI, we support you by offering a safer way to serve the food that provides nourishment and comfort to your extended care campus communities.

## Elevated Dining Environments

- Experts in the unique requirements of senior care environments
- Industry leader in design and fabrication of sneeze guards
- Custom counter and servery solutions compliment your architectural vision
